University of California, San Diego, CA

Bachelor of Arts in Business Administration, Paul Merage School of Business 06/2023
University of California, Irvine, CA

EXPERIENCE

Procurement Analyst, Just Go Inc., Irvine, CA 09/2023-03/2024

- Analyzed inventory and sales data in Excel to guide purchasing decisions and pricing strategies; improved margin efficiency through market and cost analysis.
- Utilized ERP systems to streamline procurement operations, monitor vendor performance, and maintain supply chain stability.
- Identified 100+ new products and built relationships with 5 new suppliers, expanding product assortment and strengthening supplier diversity.

Marketing Analyst, Positive Masculinity Now, Remote 07/2022-10/2022

- Enhanced digital marketing campaigns by 21% using data analysis tools like Social Champ.
- Collaborated with cross-functional teams to produce on-brand social media content.
- Conducted digital marketing research and led weekly team meetings to foster collaboration and track marketing KPIs.

Franchise Manager, Charley's Philly Steak, Beaumont, TX 01/2017-07/2017

- Streamlined franchise operations during the early stage, ensuring smooth business growth through data-driven strategic planning and visualization tools.

PROJECTS

Foodmandu Recommendation System & Business Analytics 03/2025-06/2025

- Analyzed 1.1M+ food delivery transactions to segment users via K-Means clustering and behavioral features (e.g., spending, cuisine, order frequency); identified 7 distinct customer personas for targeting.
- Built a supervised ranking model (XGBoost, AUC = 0.86) to predict user-vendor match likelihood; incorporated customer preferences and vendor attributes to enable personalized recommendations.
- Delivered actionable insights on customer loyalty, price sensitivity, and taste patterns, informing stakeholder decisions for product positioning, user retention, and marketing strategy.

Quantum Data Analytics 03/2025-04/2025

- Analyzed retail transaction data in Python to segment customers by life stage and affluence.
- Performed uplift analysis using control store matching, statistical testing, and data visualizations to assess trial effectiveness and support data-driven decisions.

YouTube SMM Analytics 10/2022-12/2022

- Scraped YouTube data using Python and performed statistical analysis on video performance in Pandas.
- Generated data visualizations using Matplotlib to communicate insights for optimal online marketing strategies.

Marabou's Pricing Strategy 02/2021-03/2021

- Conducted pricing analysis using Excel and developed a market entry strategy, including branding, packaging, and promotions, for Marabou's U.S. launch.
